WORK EXPERIENCE

Gove • Thirunelveli, Tamilnadu • 09/2025 – Present

Gove is a growing software company located in Tirunelveli, focused on creating modern web applications and frontend-driven solutions. The team works with contemporary web technologies to build performant, scalable, and user-centric applications.

Junior Software Developer • Full-time

- Developed responsive frontend features using React to support internal web applications
- Integrated REST APIs using Axios and Fetch API for transaction and records management
- Improved page load performance and UI responsiveness through optimized component rendering
- Reduced UI bugs by debugging issues and participating in peer code reviews
- Collaborated with cross-functional teams in an Agile development environment
- Improved web performance by minimizing unnecessary re-renders
- Assisted in backend API development and integration using NodeJS

EDUCATION

Master's in Computer Application

PET engineering college • Vallioor, Tirunelveli, TN • GPA: 7.3 • 07/2021 – 07/2023

Bachelor's in Computer Science

Thiagarajar college madurai • Madurai, TN • GPA: 6.5 • 07/2017 – 07/2020

HSC

EBG Matricualtion Higher Secondary School • Madurai, TN • GPA: 73.3 • 05/2016 – 05/2017

SSLC

EBG Matricualtion Higher Secondary School • Madurai, TN • GPA: 94.2 • 05/2014 – 05/2015

PROJECTS

Tolls Management System • 09/2025 – 01/2026

Gove

- Built dynamic and responsive user interfaces for toll information management
- Implemented filtering and data views to improve record accessibility and usability
- Integrated REST APIs for real-time data updates and transaction handling
- Enhanced usability and maintainability by implementing reusable React components

Bills Management System • 10/2024 – 09/2025

Gove

- Developed reusable UI components for internal billing workflows
- Integrated REST APIs to manage billing and transaction data
- Implemented filtering and data views to improve data accessibility
- Improved performance and consistency across screens through component reuse

ChromaLab • 03/2026 – 03/2026

- Developed an all-in-one color toolkit to replace fragmented online color tools
- Engineered real-time color processing and conversions with efficient JavaScript logic
- Built reusable components for scalable tool expansion (palette, picker, converters)
- Prioritized usability and speed, delivering a seamless experience without heavy libraries
- Live – <https://bala-murali-k.github.io/chromalab/>

JSONLens • 03/2026 – 03/2026

- Engineered a **developer-focused JSON analysis tool** to improve debugging and data visualization efficiency
- Designed a **scalable rendering system** for navigating deeply nested JSON structures
- Prioritized **usability, speed, and clarity**, reducing cognitive load when working with complex data
- <https://bala-murali-k.github.io/jsonlens/>

RegexLab • 03/2026 – 03/2026

- Engineered a **developer-focused regex debugging platform** with real-time execution and visual feedback
- Simplified complex pattern creation through **instant match highlighting and interactive testing**
- Designed for **high usability and fast iteration**, enabling efficient regex development workflows
- Live – <https://bala-murali-k.github.io/regexlab/>

VectraView • 03/2026 – 03/2026

- Engineered a **visual simulation tool for vector mathematics**, improving conceptual understanding through interactivity
- Designed a **real-time rendering system** for dynamic vector transformations

- Bridged the gap between **mathematical concepts and visual intuition** using an interactive UI
- Live - <https://bala-murali-k.github.io/vectraview/>

VOLUNTEERING & LEADERSHIP

Gove • 12/2025 - 01/2026

Active contribution • Thirunelveli, Tamilnadu

Demonstrated leadership and responsibility by training and mentoring three software testers within the organization. Provided guidance on project workflows, testing practices, and collaboration with developers, while effectively managing time and ensuring smooth knowledge transfer to support team productivity.

SKILLS

Frontend: CSS3, HTML5, JavaScript, React, Responsive Web Design, Svelte, UI Development

APIs & Data: Axios, Fetch API, JSON, REST API Integration

Tools & Practices: Agile Development Basics, Clean Code Practices, Debugging, Git, GitHub, Version Control, Web Performance Optimization
